

**Farrell AT, Goldberg KB, Pazdur R. Flexibility and innovation in the FDA's novel regulatory approval strategies for hematologic drugs. *Blood*. 2017;130(11):1285-1289.**

On page 1286 in the 14 September 2017 issue, some of the information about idelalisib in Table 2 is incorrect or missing. The table indicates that idelalisib received full approval from the US Food and Drug Administration for treatment of follicular lymphoma (FL) in 2014. However, it actually received accelerated approval. Some other information about the application for idelalisib for FL was omitted from the table. The corrected Table 2 is shown below. The errors have been corrected in the online version, which now differs from the print version.
