Page 365: In the paragraph that begins "On longer-term follow-up," the phrase "time of venetoclax" should read "time off venetoclax" in the sentence "In an update from the MURANO study, among 18 response-evaluable patients with a median time of venetoclax of 24 months, the ORR to retreatment was 72%, with 50% of patients remaining on therapy after a median of 11 months."
