Errata

There was an omission in the author list in the article entitled "T-cell depletion plus salvage immunotherapy with donor leukocyte infusions as a strategy to treat chronic-phase chronic myelogenous leukemia patients undergoing HLA-identical sibling marrow transplantation," which appeared in the July 15, 1999, issue of *Blood* (94:434-441). The author list should read as follows: William R. Drobyski, Martin J. Hessner, John P. Klein, Claudia Kabler-Babbitt, David H. Vesole, David A. Margolis, and Carolyn A. Keever-Taylor.

The paper entitled "DNA methylation represses the expression of the human erythropoietin gene by two different mechanisms," by Hong Yin and K. L. Blanchard, published in the January 1, 2000, issue of *Blood* (Volume 95:111-119), was chosen as a Plenary Paper by the editors of the Journal. Unfortunately, due to a non-Y2K-related software malfunction, it was not so designated in that issue. The editors offer their sincere apology for this error and commend the readership to revisit this important paper.
