

Vander Lugt MT, Chen X, Escolar ML, et al. Reduced-intensity single-unit unrelated cord blood transplant with optional immune boost for nonmalignant disorders. *Blood Adv.* 2020;4(13):3041-3052.

In Table 1 on page 3043, the row indicating that 2 patients (5%) had sickle cell disease should be removed. The error has been corrected in the published article.
