

Verbij FC, Sorvillo N, Kaijen PHP, et al. The class I scavenger receptor CD163 promotes internalization of ADAMTS13 by macrophages. *Blood Adv.* 2017; 1(5):293-305.

In the second paragraph of "Acknowledgments" on page 303, the following sentence was omitted: "This project received funding from the European Union's Horizon 2020 research and innovation program under Marie Skłodowska-Curie grant agreement 675746." The error has been corrected in the published article.
